

# Trelleborg Offshore Products

## Riser Pipe Corrosion Protection

EPDM

Polychloroprene System

Riser Clamp Coating

**TRELLEBORG**  
ENGINEERED SYSTEMS

## Main Features

- Maximum corrosion protection for the life of the platform.
- Specially designed for use in the splash zone.
- Chemically bonded to substrate.
- Cathodic disbondment resistance.
- Fire-protection with Viking Firestop (when required).
- Antifouling (when required) .
- Mechanical impact resistance.
- Blast resistance.
- Maintenance free.

### Properties

#### RESISTANT TO:

Seawater  
High temperatures (95 - 120°C)  
Cathodic disbondment  
Hydrocarbon splash  
Impact from debris  
Ozone, UV-light  
Blast up to 2,1 bar
