Gulf Print & Pack

March 26-29, 2017 - Dubai World Trade Center

Trelleborg Shows Vulcan Blankets at Forthcoming Gulf Print & Pack 2017

Visitors to the forthcoming exhibition Gulf Print & Pack 2017, from 26 to 29 March at Dubai World Trade Centre, will be able to hear about the latest developments on Vulcan offset blankets on the stand of Trelleborg's Middle Eastern dealer, Monia Importers FZC.

Nicola Tugnoli, Sales Area Manager - Middle East & Africa for Trelleborg's printing solutions, says: "Vulcan blankets have an unrivalled worldwide reputation for quality and reliability. The range is extensive, with a host of blanket solutions for commercial sheet-fed and packaging printers, whether they are producing day-to-day work or niche jobs such as security, UV or other specialist print. We've been working closely with Monia Importers for the last year and they're done a first class job in representing Vulcan. We're expecting a high level of interest at Gulf Print & Pack 2017, which attracts printers from many countries."

Vulcan blankets are produced at Trelleborg's state-of-the-art manufacturing facility in Lodi Vecchio, Italy, and they are delivered to Dubai already cut and barred, ready for use on the press. The degree of quality control employed throughout every element of the manufacturing process ensures that blankets are guaranteed to the highest standards in the industry. Vulcan is renowned for its longevity and ability to withstand smashes better than other blankets and this makes them a very effective choice when printers are looking to reduce production costs.

Hassan Abou Taam, Managing Director at Monia Importers FZC, says: "Vulcan is an exciting product to have in our portfolio, especially as the extent of the range provides a dedicated offset blanket solution for virtually every printing situation. Trelleborg provides large scale production combined with blankets for niche markets that have been created at its impressive research and development facilities in Italy.

“Trelleborg also provides tremendous technical support and this gives us great confidence when dealing with customers, whatever area of offset they operate in. We’re looking forward to exploring with visitors to our stand at Gulf Print & Pack 2017 how we can help to make their printing business more profitable.”
