

Trelleborg Offshore Products

Vikotherm™ Subsea Thermal Insulation

Main Features

- Thermal insulation designed for deep sea.
- Provides maximum corrosion and impact resistance.
- Chemically bonded to the substrate.
- Pressure resistance down to approx. 2000 m.
- Maintenance free.

Properties

RESISTANT TO:

Seawater
High temperatures (95-120°C)
High pressure (approx. 200 bar)
Trawl board impact
Cathodic disbondment
