**Re: MATERIAL SAFETY DATA SHEETS  
Trelleborg Pipe Seals, Milford**

In accordance with the OSHA Hazard Communication Program (29 CFR 1910.1200), the following items that may be furnished to your company:

Kor-N-Seal® Pipe-to-Manhole Connector	NPC FlexRib Manhole Frame-Chimney Seal
Kor-N-Tee® Pipe-to-Pipe Connector	NPC Internal Joint Seal
Kor-N-Tee® Saddle	NPC Liner End Seal
NPC Corrugated Pipe Adapter	Stainless Steel Korbands
NPC Waterstop Grouting Ring	Stainless Steel Pipe Clamps

meet the criteria defined under Section C, of 29 CFR 1910.1200

**Definitions:**

"Article" means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release or otherwise result in exposure to hazardous chemical(s) under normal conditions or use.

Based on the above OSHA definition, it is our opinion that the above listed products are not hazardous and do not require Material Safety Data Sheets.

A handwritten signature in black ink, appearing to read 'Randy Snyder', is written over a horizontal line.
