

7" - 8" - 12"

Multi-Connector

Installation Instructions

Connector Installation for Wedge Korband

1. Check to be sure the Korband is properly located in Connector groove.
2. Inspect the inside surface of the cored hole. If there is porosity or wire-to-concrete separation, use patching or hydraulic cement to smooth the surface.
3. Insert Connector Assembly into hole with Wedge Expander at top of hole.
4. Position Connector so it is square to manhole both vertically and horizontally.
5. Wedge Expander for 7" & 8" holes should be tightened as follows:
 - Plastic Wedge – **5 ft. lbs.**
 - Stainless Steel Wedge – **8 ft. lbs.**12" holes should be tightened as follows:
 - Stainless Steel Wedge – **12 ft. lbs.**Retorquing is not required prior to shipment.

Connector Installation for Toggle Korband 7" & 8":

1. Insert the Korband Expander Assembly (P/N 90225) under the Korband Toggle and rotate the hex rod by hand to ensure that the Expander is properly engaged. *(The 8" Toggle requires a foot extension (P/N 13808))*
2. Insert the Connector and Expander into the cored or formed opening from inside the manhole.
3. Using a wrench, rotate the hex rod until the Korband Toggle is expanded well past center and is firmly seated against the Connector.

***12" Toggle requires Hydraulic Jack (P/N 91910)**

Pipe Installation

1. Be sure sealing area of pipe is smooth and free of defects. Repair if needed.
2. Center pipe in Connector opening.
(Pipe must not rest on Connector Korband)
3. Position the Pipe Clamp in the Connector's Pipe Clamp groove with the screw at the top.
4. Tighten the Pipe Clamp screw to 60 inch pounds with a T-handle Torque Wrench, P/N 80090.

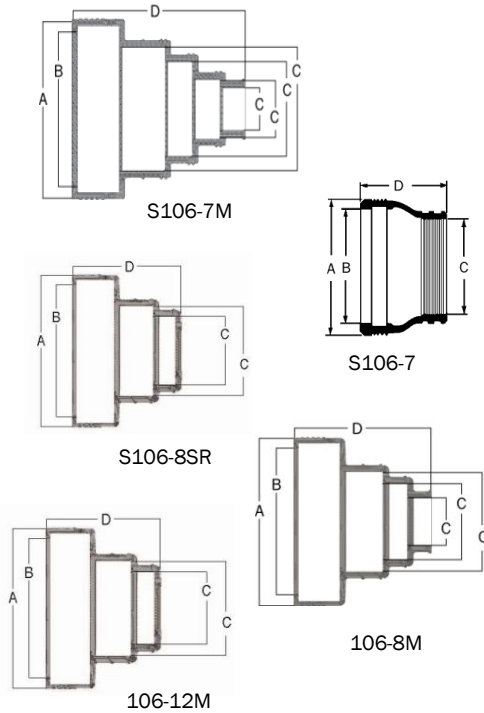

Note: On minimum pipe O.D. installations, lift the rubber up underneath the Pipe Clamp screw so that the Connector contacts the bottom surface of the pipe while the Pipe Clamp screw is being tightened. Application of pipe lubrication on the underside of the clamp will also help ensure that an even contraction of rubber is maintained throughout the clamping area.

Caution: Do not use impact wrench for installation. All pipe stubs must be restrained.

7" - 8" - 12" Multi-Connector

Sizing Chart

P/N	Pipe O.D. Range	Hole Size Range	Connector Dimensions				Pipe Clamp P/N
		A	B	C	D

Installation Tools

Plastic Wedge Korband

P/N 91819 T-Handle
Torque Wrench with
3/16" hex head
(Torqued to 5 ft. lbs.)

Stainless Steel Wedge Korband

P/N 91440-8 Torque Limiter
& 1/2" Socket Wrench
(Torqued to 8 ft. lbs.)

Toggle Korband

P/N 90225 Expander Assembly

For 8" Toggle Korband
P/N 13808 - 8" Foot Extension
(use with P/N 90225)

Pipe Clamps

P/N 80090 T-Handle
Torque Wrench
