

TrellTent® 3/2 LB

- Light-weight and easy to handle

The idea behind the TrellTent® 3/2 LB is to offer a light-weight tent that is quickly erected and easy to handle. The supporting construction of the tent consists of 4 pressurized ribs. The tent is erected and ready for use in 5 to 10 minutes.

Light-weight and easy to handle:

The low weight of the tent, 150 kg, in combination with the inflatable ribs and the integrated floor makes the tent easy to handle. Six persons can easily carry the erected tent, while a packed tent can be carried by 2-4 persons.

Good internal environment:

The light and neutral colours provide an open atmosphere and the correct balance of colours for medical care. Also the air distribution channels and the heater (optional) contribute to a good internal environment.

Connection possibilities:

The tent is quickly and easily connected to other TrellTent® models by means of the standard connection system (ropes and grommets).

TECHNICAL DATA:

MATERIAL:	PVC-COATED POLYESTER FABRIC
COLOUR, OUTSIDE:	YELLOW
COLOUR, INSIDE:	LIGHT GREEN
LENGTH:	APPROX. 8.0 m (26 ft)
WIDTH:	APPROX. 6.0 m (20 ft)
MAX HEIGHT:	APPROX. 2.5 m (8 ft)
GROUND FLOOR AREA:	APPROX. 48 m ² (520 ft ²)
INNER AIR VOLUME:	APPROX. 88 m ³ (3100 ft ³)
VOLUME, PACKED:	APPROX. 1 m ³ (35 ft ³)
WEIGHT:	APPROX. 150 KG (330 lb)
