

Trelleborg Rubore

Leading Expertise in Engineered Silence

We provide our customers an engineered solution with our NVH expertise and unique material for outstanding silent performance.

Pinpoint the noise Tailor the solution

Shear Plate - a new technology to reduce engine noise and vibration levels.

- Reduce knocking noise
- Considerably improved sound quality
- Superior durability
- Allows higher combustion pressure
- A robust solution with excellent NVH performance

Our objective is to continue being the leader in engineered silence in today's and tomorrow's automotive challenges
