**Further Trelleborg Sealing Solutions Materials Achieve Norsok and ISO
Certifications for the Oil & Gas Industry**

***Industry-Leading Range of Norsok and ISO Certified Materials Demonstrated at
Society of Petroleum Engineers ATCE 2015***

Houston, TX – September 8, 2015 – [Trelleborg Sealing Solutions](#) will showcase at [ATCE](#) on booth 1807, its expanded line of Norsok and ISO certified sealing materials that help oil and gas equipment and system manufacturers accelerate business performance.

With more than 20 Norsok and ISO approved thermoplastic and elastomer materials resistant to Rapid Gas Decompression (RGD) and sour and sweet gas aging, Trelleborg leads the industry in approved Norsok M-710 materials.

Trelleborg has additionally achieved:

- Norsok M-710 Edition 3:2014 / ISO 23936-2 for low temperature HNBR XploR H9T21 compliance to RGD testing
- Norsok M-710 Edition 3:2014 / ISO 23936-2 low temperature FFKM Isolast® J9523 to fully meet Norsok RGD and fluid ageing

Trelleborg supports oilfield equipment original equipment manufacturers to achieve higher levels of quality and compatibility for non-metallic seals used in oilfield equipment operations residing anywhere worldwide.

“Supporting our vision to provide the highest quality of seals that extend product life and lower downtime, while increasing operator productivity, we are proud to offer the largest and most comprehensive selection of fully approved Norsok M-710 sealing materials on the market. Leading oilfield service companies rely on Trelleborg for its shoulder-to-shoulder engineering, decades of experience and ability to promote safety, performance and cost effectiveness for their existing and future oilfield needs and developments,” says Eric Bucci, Segment Manager for Oil & Gas Americas, Trelleborg Sealing Solutions.

Trelleborg continues to be committed to developing new compounds, sealing profiles and technologies to meet evolving sealing requirements while supporting standards that can provide the oil and gas industry with an unbiased, accurate way to assess performance. Visit us at booth 1807 to discuss your sealing solution requirements.

Company and profile of the Trelleborg group:

Trelleborg Sealing Solutions is one of the world's leading developers, manufacturers and suppliers of precision seals and bearings. It supports its aerospace, industrial and automotive customers through over 20 production facilities and more than 40 marketing companies globally. Within its portfolio are some of the longest established sealing brands, including Busak+Shamban, Chase Walton, Dowty, Forsheda, GNL, Palmer Chenard, Shamban, Skega and Stefa along with a large number of proprietary products and materials such as Turcon®, Zurcon®, Orkot®, Isolast®, Stepseal® and Wills Rings®. www.tss.trelleborg.com

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. Its innovative engineered solutions accelerate performance for customers in a sustainable way. The Trelleborg Group has annual sales of about SEK 22 billion (EUR 2.48 billion, USD 3.29 billion) in over 40 countries. The Group comprises five business areas: Trelleborg Coated Systems, Trelleborg Industrial Solutions, Trelleborg Offshore & Construction, Trelleborg Sealing Solutions and Trelleborg Wheel Systems. In addition, Trelleborg owns 50 percent of TrelleborgVibracoustic, a global leader within antivibration solutions for light and heavy vehicles, with annual sales of approximately SEK 16 billion (EUR 1.78 billion, USD 2.36 billion) in about 20 countries. The Trelleborg share has been listed on the Stock Exchange since 1964 and is listed on Nasdaq Stockholm, Large Cap. www.trelleborg.com.
