

Fact Sheet: Vapex®

Vapex® Pro Work Wear fabric provides superior functionality with no compromise on comfort.

About Vapex® Pro

Vapex® Pro is most suited to demanding outdoor situations where FR performance and arc resistant high-visibility fabrics are required as standard such as:

- Construction
- Electrical Maintenance
- Oil and Gas
- Utilities

Choose Vapex® Pro for work wear that needs to perform in tough environments. It is a polyurethane transfer coat on FR treated cotton and available in two colors, Lunar Yellow and Orange Red.

Standards

- ASTM F1891-12
- ANSI / ISEA 107-2015
- Arc and Flame Resistant Rainwear
- High Visibility
- ISO 9001:2015 certified

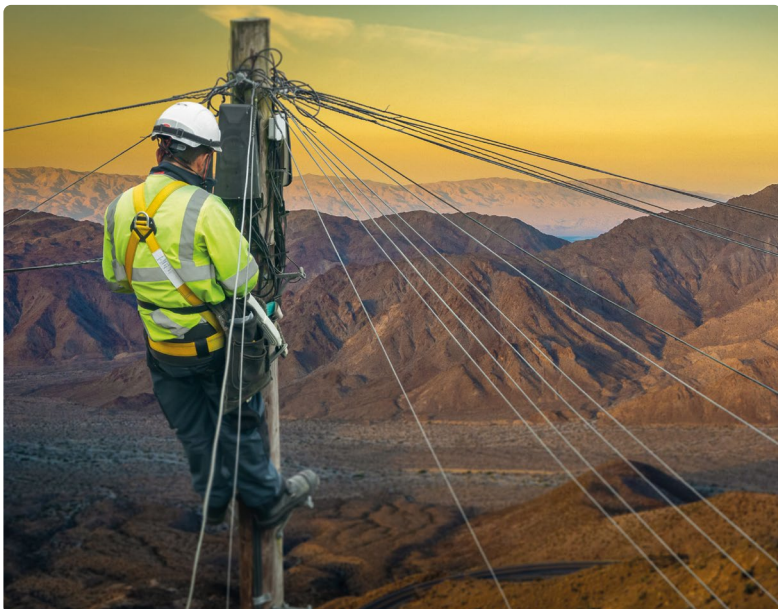

Why choose Trelleborg Engineered Coated Fabrics?

The increased demand for body and health protection ensures that Trelleborg is continuously developing new solutions for maximum protection in critical environments.

Our polyurethane-coated technical textiles for demanding work wear applications are waterproof and breathable for wearer comfort.
