TRELLEBORG GROUP LEADER IN POLYMER SOLUTIONS

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. Its innovative engineered solutions accelerate performance for customers in a sustainable way.

Trelleborg Fluid Handling Solutions is a key supplier focusing on fluid handling technologies as well as material protection in demanding areas. With over 1,500 employees, located in Europe, Turkey, Australia and China.

The Trelleborg Fluid Handling team provides high performance solutions for oil and gas transfer for marine applications, fluid handling systems in the industrial applications and full material and equipment protection in the mining industry.

Trelleborg Fluid Handling Solutions develops, designs, manufactures low and medium pressure hoses with their fittings, oil & gas marine break-away couplings and hoses, filtration for LNG and industrial applications, rubber sheeting and matting, expansion joints and wear protection lining equipment based on advanced polymer technology.

Industrial hoses

Oil & Gas hoses

Rubber sheeting and matting

Mining & mineral processing

With Trelleborg's material expertise and industry insight into cutting-edge areas with rigorous requirements, such as the aerospace and automotive industries, as well as healthcare & medical, the Group is creating the sustainable industrial solutions of today, shaped by such trends as electrification, digitalization, industrial automation and new sustainable materials.

The solutions save energy and reduce CO₂ emissions, eliminate noise and vibrations, and dramatically extend the lifecycles of machines and medical devices as well as skyscraper facades.

The Trelleborg Group has set ambitious science-based climate targets for its own operations, aiming for net zero emissions by 2035. Resource efficiency and circularity are becoming part of Trelleborg's DNA.

**PROTECTING
THE ESSENTIAL**

Seal, damp and protect

Trelleborg rubber sheeting and matting range is suitable for most areas of use. Main applications are sealing (gaskets), protection (machine and process), safety (electric insulation, fire/smoke) and flooring (industrial matting).

We invest heavily in R&D. Our sales staff, chemists and engineers work to find better solutions for customers through continuous development of new materials, composites, designs and production methods.

Certificates are available under request (food quality, drinking water, dielectric, fire and smoke resistance).

Our factory is certified ISO 9001, ISO 14001 and ISO 45001.

Trelleborg rubber sheeting and matting range is especially designed for:

Chemical (acids, bases, oils)

Energy (electrical insulation acc. EN-60243-2, IEC 61111, fire protection)

Mass transit (EN-45545-2 + A1:2016 regulation)

Food (FDA and (EC) 1935/2004 certificates)

Drinking water (several certificates as ACS, WRAS, BELGAQUA, AS/NZS, etc.)

Steel industry (high temperature)

Automotive (IMDS, sheeting for gaskets and strips)

Construction & environment (fire/smoke matting, bearings)

Mining & quarries (skirting, dust sealing)

REACH
compliant

RoHS
compliant

Standard manufacturing dimensions and tolerances

Thickness (mm)	Thickness tolerance (mm)	Width (mm)	Length (m)	Thickness (mm)
		Industrial	Wear resistant

1.5	± 0.25		15 ± 2 %	1.5
2	± 0.3		15 ± 2 %	2
3			10 ± 2 %	3
4	10 ± 2 %			4
5				5
6				6
8	± 0.5		5 ± 2 %	8
10	± 0.7			10
12	± 1.0			12
15			15	
20	± 1.4		5 ± 2 %	20
25	± 1.75			25
30/40	± 2.0		2.5 ± 2 %	2.5 ± 2 %

Due to Production reasons, it is not always possible to supply the exact ordered quantities or the exact lengths. Consequently, the quantity delivered and invoiced can change by ± 10% of the quantity requested or/and a maximum of 10% of the ordered rolls can be supplied in short lengths at the same price (minimum one roll). For further information check our General Conditions of Sale.

The technical data shown on this brochure is taken from our TDS at the date of printing, errors and omission excepted. In the event of disparity, the values on the TDS are available on our website (www.trelleborg.com/fluidhandling).

Industrial sheeting

The solution for any sealing or protection problem, even in the most demanding industrial environments.

even in the most demanding industrial environments.														
			Color	Density (g/cm³)	Hardness (Shore A)	Tensile strength (MPa)	Elongation at break (%)		Working temperature (°C)	Diluted acids and bases	Concentrated acids and bases	Ozone	Oils and hydrocarbons	
EPDM														
Excellent ageing properties (heat, ozone, weathering). Good resistance to acids, bases, solvents and steam. Remains flexible at low temperature. Not resistant to hydrocarbons and fat products.	Standard level quality	EF51		1.30	65	5	200	-25	+ 120					
	Fire EN-45545-2 compliance	E527			1.45	70	7	400	-30	+ 100

E645

Black EPDM sheeting for drinking water.

Approved by WRAS as suitable for contact with water for domestic purposes up to 23°C.

**EPDM for
drinking water**

E527

High performance EPDM sheeting. Fire resistant with low and not toxic smoke emission. Halogen-free.

Classified as HL3 R22, R23 & R24 according to European EN-45545-2 + A1:2016 regulation.

**Fire resistant
EPDM**

Industrial sheeting

NR SBR

NR: Natural rubber. Excellent mechanical and dynamic properties, abrasion resistance, resilience and elasticity. Flexible at low temperatures. High elongation and deformation capacity. Not resistant to oils and petroleum based products.

SBR: Alternative to natural rubber.

			Color	Density (g/cm ³)	Hardness (Shore A)	Tensile strength (MPa)	Elongation at break (%)	Working temperature (°C)	Diluted acids and bases	Concentrated acids and bases	Ozone	Oils and hydrocarbons

FOOD GRADES

Food grade rubber sheeting meeting European (EC) n° 1935/2004 and 2023/2006 regulations. The material is also in compliance with FDA 21 CFR Part. 177. Indirect Food Additives: Polymers. Sec 177.2600 Rubber articles intended for repeated use (American legislation). Furthermore, these materials contain no phthalate and no bisphenol A, and are free of Animal Derived Ingredients (ADI free). Check the Food Grade symbol on this brochure to discover our food grade qualities. Further information on our Technical Data Sheets.

**Meeting (EC) 1935/2004
& FDA Classification**

Wear resistant sheeting

Sand and gravel quarries, steel industry, foundries, metal industry, aggregate and cement industries, concrete plants, sawmills, food and pharmaceutical industry, agriculture, sewer cleaning, industrial waste and road maintenance.

High wear sheeting			Rubber compound	Color	Option (bonding layer)	Density (g/cm³)	Hardness (Shore A)	Tensile strength (MPa)	Elongation at break (%)	Abrasion (mm³)	Working temperature (°C)		
	Fine grain size material (dry or wet conditions)	REDFINE +	NR R397			0.95	35	25	700	60	- 40	+ 80

TOP LINER

Top Liner is a combination of Trelleborg high wear resistant rubber sheet and an innovative fixing system, patented by Trelleborg. This system saves time and money in maintenance tasks (individual plug-in operation), enhances security (no chemical required) and it is more friendly to people and environment. Gluing or cleaning processes, bolts or welding will be useless since now.

Solutions that save time and money
Solutions that eliminate hazardous tasks

Matting

Vehicles step treads, workbenches, shelves, racks covers, walls, columns, staircases, step stools, car trunks, vessels corridors, halls, corridors, ramps, stairs, elevators in industrial premises, flooring and matting for industrial site (aisles, warehouses, locker rooms).

				Color	Thickness (mm)	Width (mm)	Length (m)
