

Our solutions for Cement Industry

**HOSES AND HOSE ASSEMBLIES
RUBBER SHEETING & ACCESSORIES**

TRELLEBORG GROUP LEADER IN POLYMER SOLUTIONS

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. Its innovative solutions accelerate performance for customers in a sustainable way. In 2022, the Trelleborg Group had annual sales of approximately SEK 30 billion in around 40 countries.

The Group comprises two business areas: Trelleborg Industrial Solutions and Trelleborg Sealing Solutions. The Trelleborg share has been listed on the Stock Exchange since 1964 and is listed on Nasdaq Stockholm, Large Cap. www.trelleborg.com

We Protect the Essential, Innovate for Tomorrow.

At Trelleborg Fluid Handling Solutions, we champion the protection of what's crucial to you - from ensuring the purity of the food on your table to maintaining the environmental integrity of our oceans. Our commitment extends beyond today, preparing for the challenges of tomorrow with innovative, reliable, and sustainable solutions that safeguard people, assets, and the environment.

Your Trusted Partner in Fluid Management.

Built on over 100 years of engineering expertise, Trelleborg Fluid Handling Solutions transcends traditional fluid management.

We're not just about engineering; we're about redefining excellence with precision and care. Our pioneering solutions enhance the fluid transfer process, setting new industry benchmarks for safety, efficiency, and sustainability.

We offer reliable Fluid Handling Solutions.

We engineer the future with top-tier hoses that guarantee a smooth, leak-free flow, increase workplace safety and embody environmental stewardship with sustainable, waste-minimizing designs. We are Trelleborg Fluid Handling Solutions — Your trusted partner in Fluid Handling Solutions.

Cement Industry

Trelleborg FHS offer cutting-edge light/heavy-duty cement plant applications solutions!

We specialize in delivering top-tier transfer of your abrasive products by suction or discharge hoses tailored to meet the demanding needs of cement operators worldwide.

With a commitment to safety, efficiency, and reliability, we aim to optimize your cement operations and meet your needs.

OUR SOLUTIONS FOR CEMENT INDUSTRY

Performer Solution for abrasive Material Handling

Trelleborg has designed the **Performer** hose specially to bring a solution for handling of very abrasive materials.

Performer has a very long lifespan thanks to the very thick tube and the high quality Natural Rubber compound, a liable solution for all your industries (Power plants, pneumatic transport, steelworks, quarries...).

STRONG POINTS FOR THE **PERFORMER**

We have developed Performer Ceramic to complete our range.

- 5 times more flexible than standard ceramic hoses
- 10x longer service life than rubber hose
- Only 15 minutes to cut the pipe with a simple knife, no need for special tools. The same applies to the fittings, which can be simply installed on site.

Supervrac, Bulk Tank Truck Discharge

To discharge your tank trucks, the hose **Supervrac** will give you satisfaction thanks to its long lifespan, its flexibility and its light weight.

Trellvac, Evacuation and Material Handling Hoses

Our range of material handling hoses is the largest of the market.

Whether you are looking for a lightweight and flexible hose or a hose suitable for fixed installations, we have the solution for your stationary or mobile suction units.

Scirocco II, The Flexible Airlslide

Scirocco II is the alternative to airlslides. Based on a rubber hose, Scirocco II is very flexible. Thus you can install it easily, quickly and you save time and money.

Scirocco II works according to fluidization principle. It has a very low air consumption but a very high flow capacity: a 10" Scirocco II conveys more than 300 tons of cement per hour.

Rubber Sheeting

Trelleborg offers a wide range of wear and impact resistant rubber sheeting :

- High wear rubber sheeting: ARMURITE, BLACKROCK +, REDFINE +
- Medium wear sheeting: REDFINE, YELLOWFINE
- Special wear sheeting (Dust sealing): BLACKDUST
- And also skirting, scrapers, etc.

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. Its innovative solutions accelerate performance for customers in a sustainable way.
