

PERFORMER CERAMIC

Case study

France

Application

Pneumatic conveying of alumina in a corundum factory in Southern France.

Previous hose

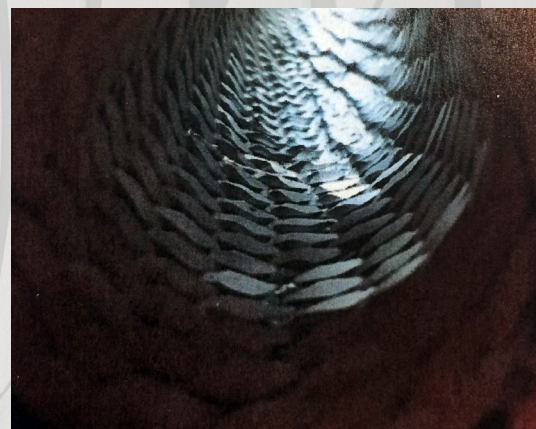

PERFORMER GL AD10H (2 hose assemblies).
ID=50mm, L=2.0m fitted with 2 BLOC-END couplings.
Lifespan: 6 months.

Installation date of PERFORMER CERAMIC hose

January 2015.

Lifespan

PERFORMER CERAMIC hose is still working in May 2017.
After a use of 28 months, there is only a limited wear on the edges of the ceramic tiles. The customer estimates that life of PERFORMER CERAMIC hose will be 7 to 10 times longer than PERFORMER GL AD10H rubber hose.

Hose inside after 28 months of use

BENEFITS HIGHLIGHTED BY CUSTOMER

Solution that saves money due to long lifespan and less maintenance interventions.

As easy to install as PERFORMER GL AD10H rubber hose.
