

Kor-N-Seal® I

706 Series Pipe-to-Manhole Connector

- Ideal solution for casting flexible connections
- Multi-Step connection for the most common 6, 8 and 10" pipe
- New, one piece, "keyed" mandrel for fast, accurate mounting to form
- Meets ASTM C923 requirements
- UV resistant EPDM material ideal for inventory structures

The 706 Series Connector acts as the inner mandrel - eliminating the need to go inside the manhole after forming is complete.

Our 706 Series 12A connector has been designed specifically to accommodate 8" PVC pipe in 48" manholes and flat wall structures.

Connector P/N	Pipe O.D. Range	Structure Size	Mandrel P/N
S706-12A-485	7.50 - 9.00	48/5" Round	M706-12-48-5
S706-12A-FLT	7.50 - 9.00	5" Flat Wall 6" Flat Wall	M706-12-00-5 M706-12-00-6
S706-12M-485	6.00 - 7.00 7.50 - 9.00 9.50 - 10.50	48/5" Round	M706-12-48-5
S706-12M-FLT	6.00 - 7.00 7.50 - 9.00 9.50 - 10.50	5" Flat Wall 6" Flat Wall	M706-12-00-5 M706-12-00-6

The 706 Series 12M connector accommodates pipe O.D. ranges from 6.0" through 10.5" with our unique three-step design. There are separate connector models for flat wall versus round structures.
