

PRINT4ALL

Milan, Italy

May 29 to June 1, 2018

Printgraph: Hall 18 F22 G21

Simonazzi: Hall 20 G-02/H-01

Press Release

27/4/2018

Trelleborg shows flexo and offset solutions at PRINT4ALL

Visitors to the forthcoming PRINT4All event in Milan, 29th May - 1st June, will be able to hear about Trelleborg's innovative printing solutions on two stands. The printing solutions operation's offset blanket and screen printing products will be shown on the stand of Italian distributor Printgraph, while its Axcyl flexo sleeve products will be on the stand of Simonazzi, Trelleborg's Italian agent in the flexo industry.

Roberto Levi, Managing Director of Printgraph (Hall 18 F22 G21), says: "PRINT4ALL will be one of the biggest events in the industry, bringing Converflex, Grafitalia and Inprinting into one venue and providing a platform for an enormous range of new and exciting technologies. A diverse range of sectors will be represented, from converting and packaging to commercial and industrial print.

"Visitors to the Printgraph stand will be able to enjoy a virtual experience, watching industry-leading Vulcan Sunrise blankets in use with low energy UV inks, which is one of the fastest growing areas of print at the moment. The pressure on printers to handle shorter runs more effectively has resulted in a rise in popularity of blankets that enable easy cleaning for frequent job changes. Trelleborg has seen a significant increase in sales for its solutions to this issue."

In addition to the ground-breaking work it has carried out in the field of offset blankets, Trelleborg also leads the industry with its Axcyl flexo sleeves and visitors to the Simonazzi stand (Hall 20 G02/H01) will be able to learn about the latest developments for this specific segment. The new Carbon Bridge BS, the well know Axcyl sleeves Type R and Coaxcyl EM and Axcylox protection system for anilox will be on display.

Luciana Simonazzi, Managing Director of Simonazzi srl, says: "PRINT4ALL provides a great opportunity to show the quality and leadership of Trelleborg's flexo products and to confirm once again the commitment we have to improving the quality performance of flexo printing."
