

Innovation & Solutions

Trelleborg Coated Systems Rollers and Belts operation, leading manufacturer and supplier of **rollers and sleeves coverings** for the tissue converters and belts for the textile industry, offers solutions for:

- Rubber rollers coverings for the converting industry (tissue, foils, textile finishing, non-woven...)
- Composite sleeves manufacturing
- Rubber shrinking belts for textile finishing
- Roll covering tapes

Beyond the product we offer also:

- A committed Research and Development activity
- A dedicated manufacturing unit in France
- A NIP Simulator system to tailor-make/customize our rollers coverings and match application requirements
- An integrated logistic service

Plasticote

Glue Applicator Solution

Plasticote range are rubber coverings specially developed for all coating positions. It is designed to grant a wide scope of chemical compatibility.

Thanks to its outstanding surface properties (roughness, energy), it delivers an homogeneous glue coating all log long, preserving softness and preventing waste.

Glue applicators for Tissue converting lines

Key Features

- Outstanding abrasion resistance
- Concentricity tolerance < 20 µm
- Cylindricity down to 20 µm
- Excellent transfer capacity
- Dimensional stability
- Smooth surface
- Good chemical compatibility

Benefits

- Outstanding lifetime
- Optimal glue transfer
- Homogeneous coating
- Product softness is preserved thanks to lower glue consumption

The product at a glance

HARDNESS	50 to 70 Sh A
MAXIMUM LINEAR LOAD	up to 30 kg/lcm
MAXIMUM WORKING SPEED	800 m/min
COLOUR	Black
