

Innovation & Solutions

Trelleborg Coated Systems Rollers and Belts operation, leading manufacturer and supplier of **rollers and sleeves coverings** for the tissue converters and belts for the textile industry, offers solutions for:

- Rubber rollers coverings for the converting industry (tissue, foils, textile finishing, non-woven...)
- Composite sleeves manufacturing
- Rubber shrinking belts for textile finishing
- Roll covering tapes

Beyond the product we offer also:

- A committed Research and Development activity
- A dedicated manufacturing unit in France
- A NIP Simulator system to tailor-make/customize our rollers coverings and match application requirements
- An integrated logistic service

Pressplast Gold

Lamination Solution

Because product lay-outs become more and more complex: the NEW Pressplast Gold rubber covering enables **a perfect bonding of multi-ply products**, avoids rear ply to be re-embossed (backside effect), saving product thickness, while requiring less cleaning operations thanks to **improved release properties**.

As a result, converters get a product perfectly aligned with its specifications.

Pressplast Gold is the sole covering combining the advantages of both steel marrying rolls and rubber marrying rolls.

Marrying rollers for Tissue converting

Key Features

- Narrow NIP thanks to increased specific pressure
- Extended mechanical stress resistance
- Abrasion resistance
- Increased release properties

Benefits

- Perfect assembly of the plies, even if they are numerous
- Preserving product thickness
- No back side effect (re-embossing of the inner ply)
- Preserving product softness
- Perfect bonding between each ply

The product at a glance

HARDNESS	100 Sh A
MAXIMUM LINEAR LOAD	up to 100 kg/lcm
MAXIMUM WORKING SPEED	600 m/min
COLOUR	Green
