

Innovation & Solutions

Trelleborg Coated Systems Rollers and Belts operation, leading manufacturer and supplier of **rollers and sleeves coverings** for the tissue converters and belts for the textile industry, offers solutions for:

- Rubber rollers coverings for the converting industry (tissue, foils, textile finishing, non-woven...)
- Composite sleeves manufacturing
- Rubber shrinking belts for textile finishing
- Roll covering tapes

Beyond the product we offer also:

- A committed Research and Development activity
- A dedicated manufacturing unit in France
- A NIP Simulator system to tailor-make/customize our rollers coverings and match application requirements
- An integrated logistic service

SizeMaster

Glue Applicator Solution

Because the market requirements imply a wide range of glue definition, SizeMaster by Rollin combines the transfer ability and the chemical compatibility, in order to comply with any of your product portfolio. SizeMaster is designed to facilitate uniformity of the glue application, to get the perfect bonding of the product.

SizeMaster coverings are also available with sleeve technology.

Glue applicators for Tissue converting lines

Key Features

- Concentricity tolerance < 20 µm
- Cylindricity down to 20 µm
- Low surface energy
- Low surface roughness
- Abrasion resistance
- Dimensional stability
- Smooth surface
- Outstanding chemical compatibility (including lubrication oil)
- Limited dust clogging

Benefits

- Extended lifetime
- Optimal glue transfer
- Homogeneous coating
- Product softness is preserved thanks to lower glue consumption
- Less cleaning operation

The product at a glance

HARDNESS	50 to 80 Sh A
MAXIMUM LINEAR LOAD	up to 30 kg/lcm
MAXIMUM WORKING SPEED	800 m/min
COLOUR	Black
