

TRELLEBORG

Sunroof Seals

As a world leader in engineered polymer solutions, Trelleborg seals, damps and protects critical applications in demanding environments. Here's why you can trust Trelleborg for your specific sunroof seal needs.

Automotive Seal Experts

We seal and protect windows and roof systems, serving most major automotive brands in North America and Europe. Our automotive expertise and knowledge ensures essential functionality and high quality protection.

Dedicated Focus on Sunroof Manufacturers

We work directly with sunroof manufacturers and offer design assistance as needed. You have our full attention and support.

Local Presence, Global Reach

We deliver our global expertise and knowledge via local teams. With operations in the U.S., Mexico and throughout Europe, we are where you need us.

In-depth Material and Applications Experience

We know sealing profiles inside and out. Our in-depth knowledge and experience on everything from materials to processes and development to applications means that our customers are able to protect what matters most.
