

High performance -  
maximum functionality

# L2218 Overlap gasket

## KEY FEATURES & BENEFITS

- compensating tolerances
- perfectly adjusting to sash surface
- secure positioning

## DESIGN & FUNCTION

The interaction of three components creates highest functionality:

The foamed cell core in the gasket head compensates tolerances. The folding geometry ensures a perfect adjustment to the sash surface. The soft tip at the foot and the hard, slightly curved back of the gasket ensure permanently secure positioning and a straight stand in the rebate.
