# New TLC Plus. Reduce your variable costs by over 20%

The TLC Plus is an advanced, sensor-based check-up system, which measures tire pressure. Adopting the right tire pressure can reduce farming variable costs by over 20%, while improving

crop protection and operation safety. Boost your farming productivity with the TLC Plus. Reduce fuel consumption while increasing traction power and crop yield.

**TLC PLUS KIT**  
To get your TLC Plus kit, download the TLC app and access the e-commerce area or contact your Trelleborg sales representative

**Gateway**

- High speed & power transmission
- Low power consumption
- Reliable connection

**Sensors**

- Up to 5-year lifespan
- Premium measurement accuracy
- Extra small battery

## Produce more, with less. Intelligently

With TLC Plus, your farming productivity is always under control. The new Trelleborg TLC Plus controls the tire pressure of your machines

maximizing productivity, efficiency and safety of your farming operations. TLC Plus helps you protect your farm.

**FUEL EFFICIENCY**

**SOIL PROTECTION**

**ENHANCED SAFETY**

**FLEET MANAGEMENT**

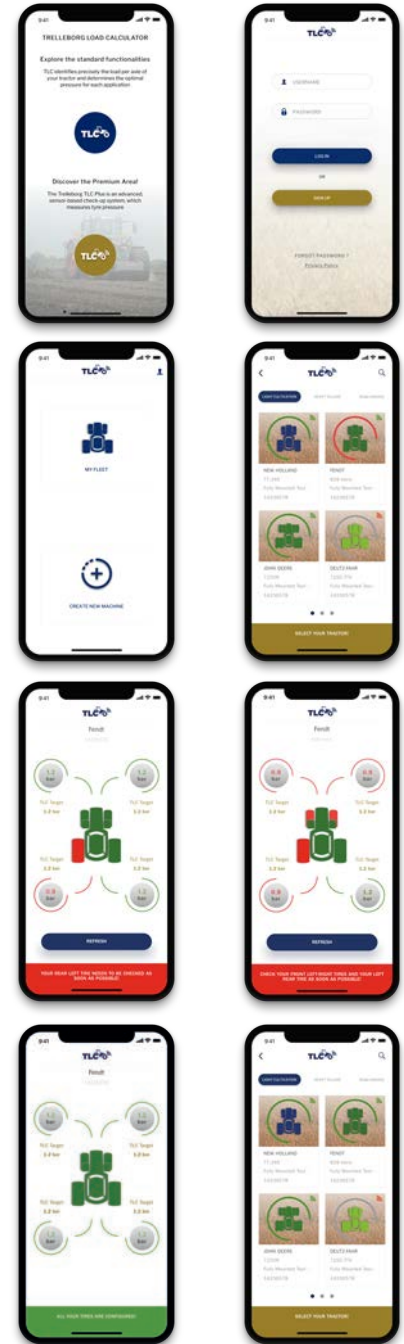

**FULL CONNECTIVITY**

# TLC Plus. Your trusted advisor @ the touch of a button

While the standard TLC calculates the right pressure for any application, the TLC Plus checks the tire pressure of your fleet and recommends adjustments when needed.

Through the TLC Plus App, you have access to tractor data not only when next to the vehicle, but also remotely from your office.

- 1** Download the App, register and get the TLC Plus Kit
- 2** Configure your machine fleet and install the TLC Plus Kit
- 3** Check the tire pressure
- 4** Adjust the tire pressure and run the check-up again

Honoured with "Disruption Excellence Award 2019"
